## Examiner's Amendment

- 1. The amendment to claim 1 filed March 1, 2004 makes the claims allowable, however, claims 2 and 3 have improper status identifiers in that "delete" should be cancelled and the amendment is non-compliant. Thus, the amendment has been placed in an examiner's amendment so the amendment does not have to be returned to applicant for correction.
- 2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The examiner attempted to contact the attorney, however, the attorney was unavailable after several phone calls. The examiner's amendment does not effect the claims thus the amendment was made without authorization.

The application has been amended as follows:

Claims 2 and 3, line 1, change "delete" to ---canceled---.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rosemary E. Ashton whose telephone number is 571-272-1326. The examiner works a flexible work schedule and can normally be reached M-F between 10:00 am – 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached at 571-272-1385.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should
